

## **JAYANTA RAY, MD**

Born in a middle class family of Calcutta, India, I am the youngest of five siblings.

I went to Medical School in Calcutta, India and graduated from a prestigious medical school there (R. G. Kar Medical College).

After my graduation from medical school, I was selected thru All India Medical entrance to B .J. Medical College, Pune, India and completed my three-year residency in OB-GYN and became board certified.

I was practicing as an attending physician in Calcutta, India for few years, and then decided to come to USA with my wife (who is also a physician and currently doing fellowship in a renowned hospital in NY) to join my brother and sister.

After passing USMLE exams in first attempt, I successfully completed Family Medicine residency from South Nassau Communities Hospital, Oceanside NY. I am currently board certified and practicing as a family practice physician since last two years.

I am the proud father of a six years old daughter and she is my joy and inspiration in life. Currently I live in Bellmore, Long Island, NY with my wife and daughter and I am working with Atlantis Medical Group's office in Bronx .
